CUSTOMIZED ITINERARY

Algonquin Airlink plans all trips specifically to meet your needs. After an early morning meeting in New York, we can have you home for your children's soccer game, a round of golf, or your anniversary dinner! Meeting done early? We are ready to bring you home when you are! Maximize your productive time with Algonquin Airlink.

INFLIGHT ENTERTAINMENT CENTRE

With our in-flight amenities, you can prepare for your business meeting during your flight, or relax and enjoy a cold beverage while watching DVD movies. We are happy to provide special catering in addition to our on-board drinks and snacks.

TIME SAVINGS

Cut your travel time to a fraction of the time required by commercial flight. Spend less time waiting in a crowded airport and more time in the office, at home.

YOUR SAFETY IS OUR TOP PRIORITY

Algonquin Airlink enjoys a perfect safety record, but we don't rest on our laurels – we are always working to improve the safety and convenience of our service.

We operate our aircraft with a team of 2 professional pilots, trained to exceed the already rigorous standards set by Transport Canada. Our modern maintenance facilities are certified by Transport Canada and offer the highest level of quality assurance.

CARBON NEUTRAL FLIGHTS

Algonquin Airlink is one of the first Carbon Neutral air charter services in Canada. In addition to fuel efficient practices, Algonquin Airlink works closely with Terrapass to offset our Carbon emissions, minimizing our environmental impact. We are planning for the future, today.

DESTINATIONS

Choose your own adventure! With a variety of available aircraft, based throughout Canada and the US, we can pick you up where ever you are and take you where ever you would like to go. You can play a round of golf in the morning and be in another time zone a few hours later. You have total control of your time.
