- OPTIONS -
- Flex Hood**
 - Bolt-on cutting edge**
 - Hydraulic hood turner**
 (standard on 7' and larger)

These blowers are made to suit a wide range of horse-power requirements from 25hp to 50hp.

The close-fitting fan housing with the 4 blade fan ensure that even the wettest snow is thrown clear of your path. The hardened/ground shafts, gears and splines along with re-inforced end-plates, clevis hitch, #60 auger chain and heavy-duty auger-flighting make this one tough package. Put it to the test on your compact tractor and see the difference.
