

agricultural  **snowblowers**

90 P

CUTTING WIDTH	AUGER	FAN	WEIGHT (LBS)
90"	20"	30X10"	1080

Have you got a long lane, don't like to back up but have to get snow out of your way? Consider hooking your mid-size tractor on to one of our pull-type blowers and leave the snow behind you.

It comes standard with a cutting-edge on the bottom to help cut through the tire marks, hydraulic hood turner and wear shoes on the back to keep you out of gravel when the ground is soft. This two-stage blower is easy on horse-power and easy to operate.

90 P - OPTIONS

- Flex Hood**
- Bolt-on cutting edge**
- Hydraulic hood turner (standard on 7' and larger)**
